Attention when measuring

1. Please use a soft tape measure when measuring the customer.
2. Please measure in increments of 5mm.
3. When measuring, it should not be too tight nor too loose. Please measure at the exact fit.
4. Arms should be raised at a 45° angle from the sides. The customer should exhale, relax, and keep a straight posture.
5. ★ : the part of the neck sticking out when bent forward
6. By holding a thick book or two between the thighs, the posture of the customer will improve, thus increasing the precision of the measurements.
7. Please allow another individual to help when measuring.
8. Please measure at least two times for higher precision.

① Height
cm

② Weight
kg

③ Total length
